

Dear court I am case 88944

S.Hakze, my English is not really great, but I had help from Kroll, who advised me to contact you as soon as possible and explain what is going on.

In your 71 pages PDF it said to object, according to them...

I had 2 profiles at FTX

stanhakze@gmail.com

stefanharmesen1958@gmail.com

The last one was my trade profile and in order to provide proof of my history, I first have to be able to log in and that doesn't work.

according to FTX mailcontact, that profile does not exist if a new login code is not sent... I think they transferred my Bitcoins there to another wallet and deleted it including the meta data...

I can prove solo that I started there with 46 etherium and converted them into BTC there... (proof from my ether scan in the attachment) All this was also sent to the wrong court in New York according to Kroll in paper version... so now let's leave it here, sorry.

On the other hand, FTX sends me 2 links to try to log in from pages that are not operational... 1 big nonsense that FTX... how do I get my BTC back? Impossible to expect help from FTX to deny everything they always do... I can never in my history of stefanharmesen1958@gmail.com they tell me the profile does not exist.

I want my 16.3 BTC from the end back there or whatever, if necessary my starting 46 etherium to get some peace of mind with it.

Regards,

S.Hakze
